

CAPTAIN COUNTDOWN

Texas Breeders:

We want to start first by saying we realize the shape Texas breeding and racing is in, but we both have made a commitment to stay and ride it out. This is why we both keep and breed mares in Texas and most importantly keep **Captain Countdown** here. We feel we can make a change and we will continue to stay and support Texas. We have booked over 40 mares to the Captain the last 2 years and we very much appreciate the support you have shown.

With that said we are announcing that we have decided to breed all mares this year for **\$500 LFG**. We want to show you how much we appreciate you during these difficult economic times not only in Texas but the whole country. We feel we have a great stallion in the "**Captain**" and this no way diminishes his value as we have increased his number of mares consecutively over the last 3 years, but this is directed to try to help you and the entire industry in our great state of Texas.

For an update on our latest winner go to www.captaincountdown.com and click on the Winners Circle tab.

We thank all of you for the support in the past and wish you look in the future.
